Attention: Mr. Jerry Sexton

Dear Mr. Sexton,

In reference to your letter dated 11-17-92, please find attached two letters, one from New Mexico Potash Corporation and one from Mississippi Chemical Corporation waiving any objections to Bass Enterprises Production Co. on the drilling of the subject well. Also attached is a revised APD with the new setting depth of the surface casing and cement, along with the new cement volume on the production casing (to bring the cement to the surface).

If you have any questions or need any additional information, please contact Mike Everett or myself at the above letterhead address.

Sincerely,

George A. Teer
Division Production Manager
