PULL OR ALTER CASING <input type="checkbox"/>	COMMENCE DRILLING OPNS. <input type="checkbox"/>
OTHER: <input type="checkbox"/>	PLUG AND ABANDONMENT <input type="checkbox"/>
	CASING TEST AND CEMENT JOB <input type="checkbox"/>
	OTHER: <input type="checkbox"/>

12. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Propose to add a new Delaware interval from 5570' to 5700'. This interval will have selected perforations and be stimulated with 2000 gal. 7½% NEFE acid and 60,000 gal. sand frac. This new interval is separated from the existing perforations by approximately 100' of non-productive Delaware section with carbonate barriers. This new interval will display it's own individual characteristics as to water-oil contact, permeability, reservoir pinch-out, and reservoir pressure. This new zone will also be categorized as Lea Delaware, Northeast.  
After stimulation of the new Delaware interval, it will be added to the existing interval.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
