RE: Application of OXY USA Inc. for Unorthodox Gas Well Location and Simultaneous Dedication for the State E #6, 2145 FSL 495 FWL Sec 30 T19S R37E, Eumont Yates 7 RVRs Qn (Pro Gas), Lea County, New Mexico

Dear Sir:

OXY USA Inc. respectfully requests administrative approval of this application for the subject Unorthodox Gas Well Location and Simultaneous Dedication.

OXY is planning to drill and complete the State E #6 in the Eumont Yates 7 RVRs Qn (Pro Gas) Pool. In order to produce this well, it is necessary to simultaneously dedicate the previously approved non-standard gas proration unit (NSP-224) in the S/W quarter of Section 30-T19S-R37E, which is currently assigned to our State E #5. This well had been staked at a legal location, but had to be moved to avoid a pipeline, which resulted in an unorthodox location.

Attached is the Form C-102 for the State E #6 and #5 wells, and a map showing offset operators. A copy of this letter and attachments are being furnished by Certified Mail to offset operators as their notice of this application.

If you have any questions relating to this application, please contact me @ 915-685-5913 or David Stewart at 915-685-5717. Thank you for considering our application.

Sincerely,

Richard E. Foppiano 64/DS
