	<input type="checkbox"/> Water Shut-Off
	<input type="checkbox"/> Conversion to Injection
	<input type="checkbox"/> Dispose Water

(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

The original APD for the subject well indicated the pit area will be turned to the northwest to parallel the existing access road with the V-door facing northeast. In order to prevent building the pits over a gas gathering line, the V-door will now have to be oriented west southwest with the reserve pit to the south southeast. Rotating the location in this fashion will provide for building the location with respect to the gas line without having to move the stake. The local BLM inspector for this area will be contacted on this date by a Read & Stevens employee prior to commencing construction.

14. I hereby certify that the foregoing is true and correct
