RE: J.A. Foster #5
Sec. 34-19S-36E
Lea Co., NM

Dear Donna:

Bristol recently drilled the above referenced well and have sent a C-104 form setting up Petro-Source to haul the oil in the test tank. Since then, we have hooked up the pipeline to Tex-New Mexico Pipeline, who will be the oil gatherer. We are enclosing an amended C-104 form to make this change and also add Warren Petroleum as the gas purchaser. We are still working on the well, so a completion report will follow.

If you have any questions, please contact us at (918) 492-7900.

Sincerely,

Lori Livingston
Production Analyst
