

United States Department of the Interior

BUREAU OF LAND MANAGEMENT

Lea County Inspection Section

P.O. Box 1157

Hobbs, NM 88240-1157

IN REPLY REFER TO:

As stated in 43 CFR 3162.7-5 and 3162.6: "A site facility diagram shall accurately reflect the actual conditions at the site and shall, commencing with the header if applicable, clearly identify the vessels, piping, metering system, and pits, if any, which apply to the handling and disposal of oil, gas and water. In order to update your lease files, please submit a corrected facility diagram with updated information as requested below:

1. Accurately reflect the actual conditions at the site
2. Clearly identify the header
3. Clearly identify the vessels
4. Clearly identify the piping above and below ground
5. Clearly identify metering system
6. Clearly identify pits by type, size, and construction
7. Clearly identify the lease on which the facility is located
8. Clearly identify the location of the site security plan
9. Indicate which valves shall be sealed and in what position during the production or sales phase
10. Be updated when existing facilities are modified or following the inclusion of the facility into a federally supervised unit or communitization agreement
11. Clearly contain the name of the operator, lease number, field name and location by 1/4 1/4 or unit letter or footage, section, township and range.
