RE: Lease Commingling and Off Lease Measurement
Section 3 & 11, T20S, R33E, NMPM
Lea County, New Mexico

Dear Sirs:

Nearburg Producing Company hereby requests administrative approval for Lease Commingling and Off Lease Measurement of the production from the wells listed on Attachment I. As noted on said attachment, only those well designated with an asterisk are currently producing. The remaining wells are waiting on completion or have not been drilled.

The common tank battery for said wells is located in Unit D, 660' FNL and 760' FWL, Section 11, T20S, R33E, Lea County, New Mexico. All of subject wells and proration units are depicted on Attachment II.

All production will be metered on each individual well and the meters will be calibrated on a regular basis. All production that will be commingled will be produced from the same zone, that being the Teas; Delaware.

The purpose of the Lease Commingling and Off Lease Measurement is to reduce facility and operating costs, thereby increasing the economic life of the wells.

A diagram of the measurement equipment, separators and storage tanks will be submitted as soon as the diagram is drawn.

Also, enclosed Attachment IV, a copy of the notification letter which was mailed to all interest owner and to the purchasers via Certified Mail.

Thank you for your cooperation in this matter. If you have any questions, please feel free to contact the undersigned.

Very truly yours,

Kim Stewart
