Re: Application for Triple Tubingless
Completion, C. H. Weir "A" Well
No. 8, Lea County, New Mexico

Gentlemen:

Attached is Texaco's Application for Triple Tubingless Completion for the C. H. Weir "A" Well No. 8 located 1980 feet from the north line, 1980 feet from the west line, Section 12, Township 20 South, Range 37 East, Lea County, New Mexico. Texaco plans to complete this well as a triple tubingless completion in the Skaggs-Drinkard (Oil), Skaggs-Florieta (Oil) and Undesignated Blinbry (Gas). It is anticipated that all zones will flow initially. Approval has been granted previously by the New Mexico Oil Conservation Commission for these zones in other wells in this area.

Also attached is a copy of the plat showing the area immediately surrounding Texaco's C. H. Weir "A" Lease and a diagrammatic sketch of the proposed triple tubingless completion. It is respectfully requested that TEXACO Inc. be granted administrative approval for this application as provided for under Rule 112-A.

Yours very truly,

H. N. Wade

* Should waivers from all offset operators not accompany an application for administrative approval, the New Mexico Oil Conservation Commission will hold the application for a period of twenty (20) days from date of receipt by the Commission's Santa Fe office. If, after said twenty-day period, no protest nor request for hearing is received by the Santa Fe office, the application will then be processed.

NOTE: If the proposed dual completion will result in an unorthodox well location and/or a non-standard proration unit in either or both of the producing zones, then separate application for approval of the same should be filed simultaneously with this application.
