To: Wood State "A" No. 2 well
Bumont Pool
Non-Standard Gas Proration
Unit

New Mexico Oil Conservation Commission
Box 871
Santa Fe, New Mexico

Attention: Mr. W. B. Macey

Gentlemen:

Under the provision of Rule 5 (b) of Order A-520, Oil Well Drilling Company respectfully requests administrative approval of a proposed non-standard proration unit for its Wood State "A" Well No. 2 located 1980 feet south of the north line and 1650 feet east of the west line of Section 16, T20S, R37E, Lea County, New Mexico in the Bumont gas pool.

The proposed unit consists of 40 acres comprised of the SE/4 of the NW/4 of Section 16, T20S, R37E.

The Wood State "A" Well No. 2 was completed as an oil well in the Monument Pool. However, the well is not producing at the present time due to water. We have therefore filed for approval Form C-102 for recompletion. All acreage included in the proposed unit falls within the limits of the Bumont Gas Pool and is reasonably presumed to be productive of gas from that pool.

In support of this request we should like to point out that the proposed unit conforms with the requirements of said Rule 5 (b) in all respects as follows:

1. Said unit consists of contiguous quarter-quarter sections.
2. Said unit lies wholly within a single governmental section.
3. The entire proposed unit may be reasonably presumed to be productive of gas.

200 BIRTHING CHART

SI FOR THE ~~EXERCISES~~ EXERCISES
