Re: Low Gas Volume Meter Setting

Gentlemen:

Based on recent month's gas deliveries, volumes have been insufficient to continue operation of the meter:

<u>Well Lease/Name</u>	<u>Location</u>	<u>GPM Meter Station No.</u>	<u>Volume (Mcf/d)</u>
Wulff State #2	NW/4 S17-T20S-R27E, Lea Co.	679-0M0031	1

GPM anticipates removing the metering equipment servicing this lease on October 1, 2000 unless gas deliveries increase significantly, or you contact us with your definite plans for rework or repair. We will charge \$1,500 to reconnect this meter, once it has been disconnected. If you would like GPM to keep this meter connected pending an increase in volume, GPM will continue operation of the metering facility at your request and upon your agreement to pay a maintenance fee of \$250 per month. If desired, indicate your acceptance of this option by initialing the box below and return this letter to me within ten (10) business days.

☐ As an authorized representative of Susan H. Crawford ("Company"), request that GPM maintain the metering equipment in service on the above lease regardless of the volume of gas delivered through the meter. Company will pay GPM \$250 per month for this service, effective the first day of the month following GPM's receipt of this letter with my initials in the box as indicated. Payment of the monthly fee will continue until the last day of the month during which (i) Company requests that the service be discontinued, or (ii) the volumes delivered return to a level sufficient, in GPM's good faith judgment, to justify continuing operation of the meter without assessment of the monthly maintenance fee. Company will promptly pay the fee each month within (10) days of issuance of the invoice by GPM.

We appreciate the dedication of this gas and look forward to the opportunity to serve you in the future.

Very truly yours,

Lewis C. Short "Chip", Agent
