

September 11, 1956

4. That the manner in which the petitioner has set out to complete the proposed dual is both mechanically feasible and practical and conforms to the Commission's policies and specifications as pertaining to the dual completion of dual gas and oil well in the State of New Mexico.
5. That a diagrammatic sketch showing the producing intervals anticipated and the physical equipment to be used in dualing this well is hereto attached.
6. That the granting of this application for permission to produce this well as a dual completion is in the interest of conservation and the protection of correlative rights.
7. That the above described acreage is within the horizontal limits of the Mount Gas Pool, and by virtue of its offset production can be assumed to be productive of gas.
8. That all lands described above and contained within the limits of the proposed prevention unit, are contiguous and lie within the limits of a single legal subdivision (section) of the U. S. Public Land Survey.
9. That a plat showing the above described lands and all offset properties, indicating well locations and lease ownership to the best of our knowledge, is hereto attached.
10. That all offset operators are hereby notified by a copy of this application.

WHEREFORE, the petitioner requests that, in the interest of conservation and protection of correlative rights, the Secretary of the Commission grant an order pursuant to Rule 112-A, Order No. B-316, and Rule 5(a), Order No. B-520 by which the petitioner may dually complete its State "T" No. 2 in the manner described above and may establish a non-standard 160 acre gas prevention unit.

I hereby certify that the information given above is true and complete to the best of my knowledge.

Respectfully submitted,

SEKELY OIL COMPANY

J. N. Dunlavy,
District Superintendent.
