

# CONTINENTAL OIL COMPANY

Hobbs, New Mexico  
November 9, 1960

Mr. Joe D. Ramey  
New Mexico Oil Conservation Commission  
Box 2045  
Hobbs, New Mexico

Dear Mr. Ramey:

Continental Oil Company's Britt B-18 No. 6 well shares a 160 acre Eumont gas proration unit with the Britt B-18 No. 3 well. The No. 6 well was used for gas-lift purposes on the lease but has been shut-in since August, 1956.

Since the No. 6 well has been disconnected and is now shut-in, we are requesting that it be removed from the proration schedule.

Yours very truly,

  
V. G. McALISTER  
District Superintendent  
of Production  
Hobbs District
