The elevation of the derrick floor above sea level is 3564 ft.

### DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

Present total depth 325' in red bed. Tested water shut off on 12-1/2" casing by drilling plug, bailing dry, waiting two and one half hours and re-running bailer. Found hole dry.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
