RE: Administrative Application for
an 80 Acre Eumont Gas Pool
Proration Unit, Mexico #3,
S/2 NE/4 Sec. 18, T20S - R37E
Lea County, New Mexico

Dear Mr. LeMay:

John H. Hendrix Corporation respectfully requests administrative approval for the creation of a non-standard 80 acre Eumont Gas Proration Unit for the Mexico #3, consisting of the S/2 NE/4 of Section 18, T20S - R37E.

The well currently has a 160 acre proration unit. Due to the producing capacity of the well, an 80 acre proration unit is sufficient for allowable purposes.

Attached is a commercial map and a Form C-102 plat illustrating the proration unit acreage and well location. A copy of this administrative application is being provided to our offset operators via certified mail.

If you have any questions, please contact Ron Westbrook at (915) 684-6631.

Very truly yours,

Re: Mexico Well No. 3, Unit H, Sec. 18,
T-20-S, R-37-E, Eumont Pool

Dear Mr. Sanders:

Thank you for your letter of January 27 regarding the subject well. Upon reviewing the past year's allowables I have found the computer was overly generous with the asterisks for the Eumont Pool. I am unsure at this point why it happened, but because of that you were unjustly accused of violating the rules for balancing gas wells.

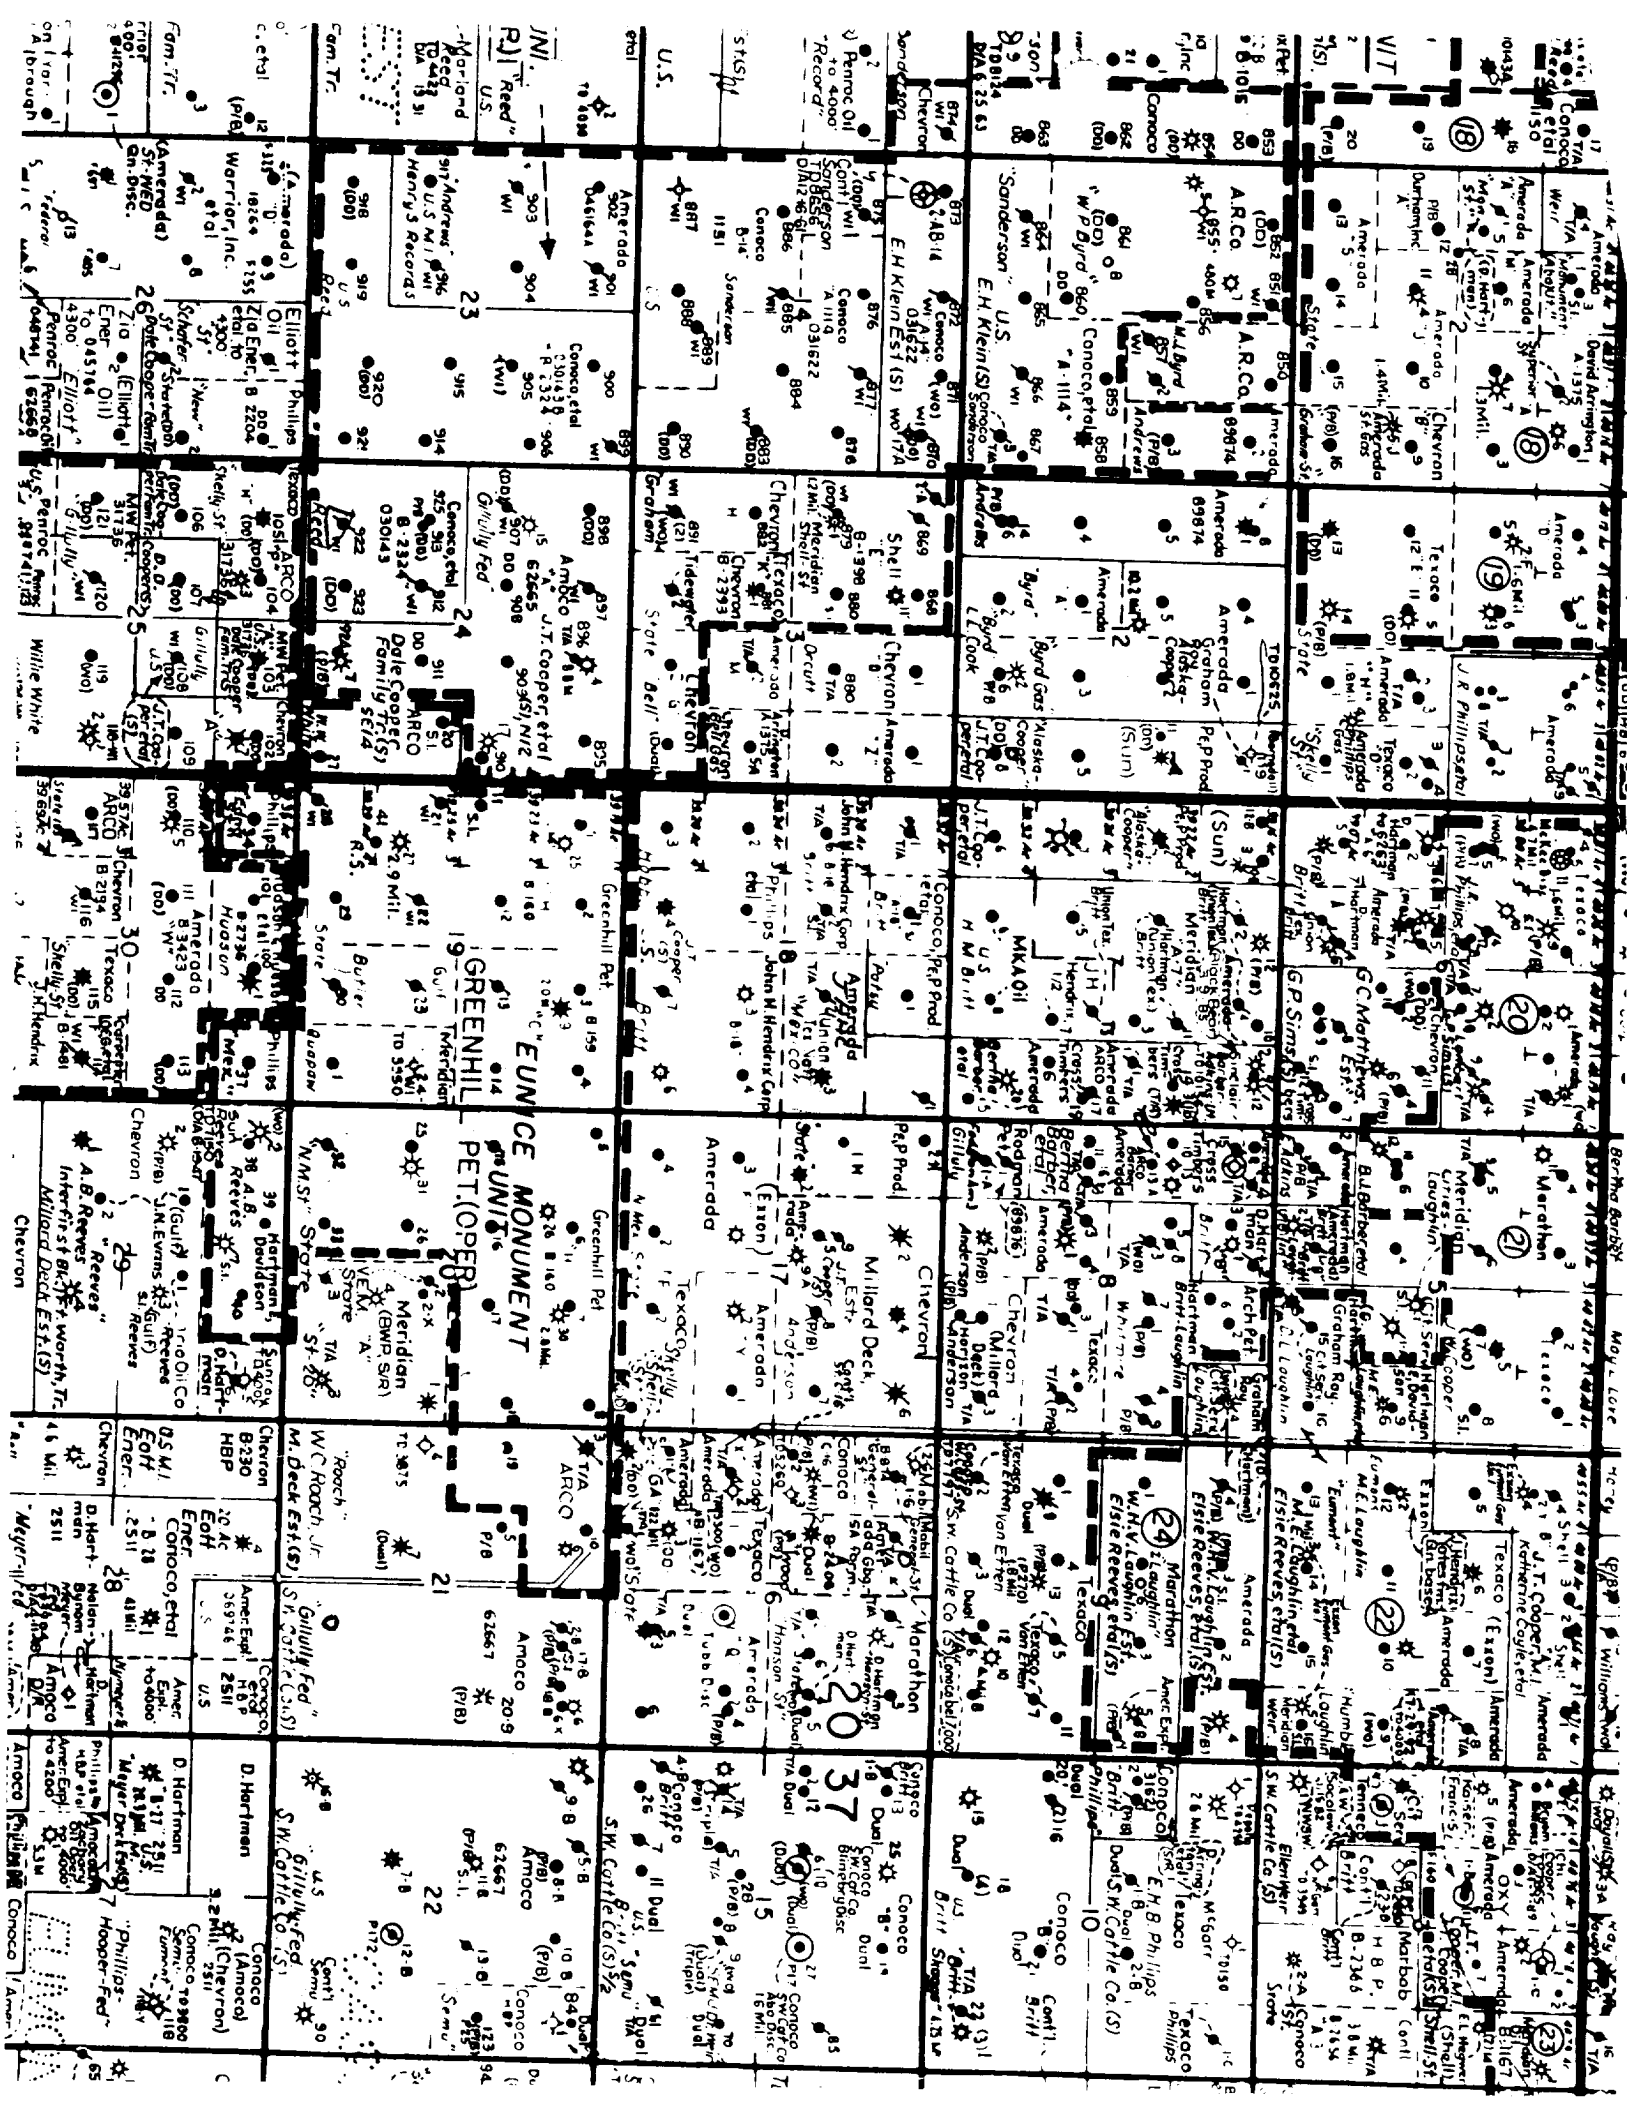

Please accept my regrets for causing you inconvenience.

Yours very truly,

VICTOR T. LYON,
Chief Petroleum Engineer
