17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Shut down effective June 1, 1976, Eunice-Monument Oil zone only. Last test on or about June, 1975, swbd tested, 1 BO, 6 BW, swbd dry; well not currently capable of producing without swabbing. Set plug in tubing, below packer, at 3569'; temporarily abandoned zone pending possible use in secondary recovery.

Well bore is dual completion. Garrett sleeve at 3437' open with Eumont gas zone open to tubing and casing, now producing.

18. I hereby certify that the foregoing is true and correct
