**FULL DETAILS OF PROPOSED PLAN OF WORK**

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

We desire permission to gas lift this well which does not have sufficient gas to flow itself. The required additional gas to flow the well will be secured from our State of New Mexico "H" University No. 10 Well.

This well was completed 12-10-39, and it was anticipated that it would flow with its own gas at that time, but it is now necessary to inject some additional gas to get the well to flow satisfactorily.
