MISCELLANEOUS MATTER

The following is a list of the various matters which have been brought to the attention of the Department of Agriculture during the year 1908, and which have been considered by the Bureau of Plant Industry, the Bureau of Entomology and Plant Quarantine, and the Bureau of Animal Industry.

1. *Importation of live animals and plants.*

The Department of Agriculture has received many applications for permits to import live animals and plants from foreign countries. The Bureau of Plant Industry, the Bureau of Entomology and Plant Quarantine, and the Bureau of Animal Industry have all been consulted in connection with these applications. The Department has been particularly careful to see that the importation of live animals and plants does not introduce any new diseases or pests into the United States.

The Department has also received many applications for permits to export live animals and plants to foreign countries. The Bureau of Plant Industry, the Bureau of Entomology and Plant Quarantine, and the Bureau of Animal Industry have all been consulted in connection with these applications. The Department has been particularly careful to see that the exportation of live animals and plants does not introduce any new diseases or pests into foreign countries.

2. *Importation of live animals and plants.*

The Department has received many applications for permits to import live animals and plants from foreign countries.
