13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

It is requested that the temporary abandonment status for this well be extended for another. An approved CIT was performed on 5/20/94, so a pressure test should not be required.

A recent Reservoir Management Plan study has recommended testing of the Paddock, Glorieta, and Blinberry in this wellbore. We are currently in the process of evaluating this recommendation and will file the appropriate recompletion plans prior to proceeding with such testing.

TH APPROVED FOR 12 MONTH PERIOD
