In accordance with Notice of Intention to Acidize dated 5-25-51, SEMU-Skaggs B-23 No. 4 was acidized with 4000 gallons in an attempt to increase production. Efforts to maintain natural flow have been unsuccessful and it is therefore proposed to install gas lift equipment, using gas from Britt B-15 No. 3 gas well.

Gas to be used will be reported on "Monthly Report of Gas Used for Gas Lift Operations".

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
