Date

OIL CONSERVATION COMMISSION,
Santa Fe, New Mexico.

Gentlemen:

Following is a notice of intention to do certain work as described below at the _____

Gulf Oil Corporation

Company or Operator

Bell Ramsay "H"

Lease

Well No. 1 in SW SWof Sec. 29, T. 20 S, R. 37 E, N. M. P. M., Dunice Field.Lea County.**FULL DETAILS OF PROPOSED PLAN OF WORK****FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION**

This well was completed July 21, 1937, at a total depth of 3840' in the upper San Andres formation as an oil well. Since March, 1940, this well has been temporarily abandoned due to its incapability to produce either oil or gas. We therefore propose to set a Baker cement retainer at 3600', some 106' above the casing shoe, and plug off the exposed formation below this point with 150 sack cement. We then propose to perforate the Knight and Penrose section between 3330 and 3430, and 3480 and 3540'. The lower section will include approximately 20 feet of the Seven Rivers formation. This work will be done in an effort to develop commercial gas production at this well. Work will be started immediately upon approval.

Approved _____, 19____
except as follows:

Gulf Oil Corporation
Company or Operator

By E. J. Gallagher
