Relocating Surface & Intermediate

Csg. Testing Valves Above the ground & filling w/ sand

17. Describe in brief or completed operations (clearly state all pertinent details, and work) SEE RULE 1133.

The surface and intermediate casing testing valves located in the cellar were removed, a 2" riser installed and the valves have been relocated above the ground. Both of the valves are marked as to which casing string they service and the cellar has been filled with sand.

18. I hereby certify that the information above is true and complete to the best of my knowledge.
