P. O. Box 1980

Gentlemen:

The Commissioner of Public Lands for the State of New Mexico has brought to our attention that the above captioned well is not a communitized lease as denoted on our corrected Form C-104 filed February 1, 1977 and approved February 8, 1977 by the Oil Conservation Commission. In reviewing our records for this well, it has been revealed that Skelly Oil Company was granted an unorthodox proration unit of only 40 acres for this gas well in April of 1954, NMOCC Order No. R-433.

It is respectfully requested that the word "Com" be dropped from the lease name in your records, as requested by the Commission of Public Lands, since this word is indeed inapplicable.

Please find attached copies of Form C-102 Well Location and Acreage Dedication Plat as requested by the New Mexico State Land Office.

Very truly yours,

D. R. Crow
