Chevron was unable to convert the EMSU 148 located 1980/N & E Sec. 31, T20S, R37E, (formerly Exxon Corp. Aggies #6) to a useable injector in their EMSU WF project. The well was plugged and abandoned and Chevron requested the name and well number be changed back to Exxon Corporation Aggies #6.

They drilled a new EMSU #148 located 2180/N & 1980/E 31-20-37.
