

DRILL STEM TESTS

Shell State No. 6

Date	Section	Recovery
6-18-54	2865-2955	Tool open 30 min, weak blow, dead in 20 min, Rec. 30' drilling mud, initial flowing pressure - 0, final flowing pressure - 0, bottom hole pressure - 0, Hydrostatic pressure - 1590
6-21-54	3133-3230	Tool open 3 1/4 min, weak blow of air, rec. 150' drilling mud, initial flowing pressure - 100, final flowing pressure - 100, bottom hole pressure 710, Hydrostatic pressure - 1710
6-24-54	3370-3496	Tool open 2 hours 50 min, gas to surface in 2 min. slight spray of fluid throughout test, rec. 30' drilling mud, flow 7,500 MCFFD, initial flowing pressure 910, final flowing pressure 910, 30 min shut-in pressure 1000, hydrostatic pressure 1810.
