Blinebry Gas Pool
Lea County, New Mexico

Eva Owens No. 1 is a Blinebry-Tubb Gas dual completion. The Blinebry zone was fraced with 30,000 gals. oil and 42,000# sand. After load oil was flowed back, this well tested 3300 MCFPD into El Paso's 600# sales line. We respectfully request a full 160 acre Blinebry Gas allowable be assigned to this well.

This well is marginal status and in MARCH 1966 the allowable was dropped to 1 (one) MCFPM. We would like for this allowable be effective March 1, 1966.

Make it June 1, 1966

Yours truly,

Sheldon Ward
