Mr. A. L. Porter, Jr.
Conservation Commission
P. O. Box 871
Santa Fe, New Mexico

Dear Sir:

The Lakeland Petroleum Corporation has recently completed a Blinebry oil well in the Northeast Quarter of Section 26-21S-37E in Lea County, New Mexico. We have agreed with them that all of the Northwest Quarter of said quarter section may be attributed to their oil well for allowable purposes and deducted from the gas allowable which is assigned to our Sarkeys Blinebry well located in the Southwest Quarter of said quarter section. Our allowable will thereby be reduced from a 160 acre gas allowable to a 120 acre gas allowable.

Yours very truly,

HARPER OIL COMPANY
