Re: Acoma Oil Corporation S. J. Sarkeys Tubb 1-B Sec. 26-215-37E Lea County, New Mexico

Gentlemen:

The above named well is dually completed in the Tubb gas zone and the Blinebry oil zone.

The Tubb Gas Zone has ceased to produce and three attempts have been made to correct the problem that exists at considerable expense, none of which have been successful.

Due to the low price being paid for the gas and the continued rise in the cost of remedial work, we find it uneconomical to continue further efforts to recomplete the well in the Tubb Zone at this time.

Yours very truly,

ACOMA OIL CORPORATION
