Re: Application to Dual Complete
S. J. Sarkeys Well No. 1 in
Blinebry Oil, Tubbs Gas Pools
Lea County, New Mexico

Dear Sir:

Lakeland Petroleum Corporation respectfully requests Administrative Approval to dual complete its S. J. Sarkeys Well No. 1, Unit "B", in the Blinebry Oil and Tubbs Gas Pools as an oil-gas dual. This well is located in Section 26, Township 21 South, Range 37 East, Lea County, New Mexico.

Permission to dual complete this well in the Drinkard Oil and Tubbs Gas Pools was granted by your order No. DC-193. We, therefore, request that this order be cancelled to place the new proposal in line for approval. This type of dual well is presently being produced by other operators in the area. The Drinkard oil zone will be abandoned as indicated on the diagrammatic sketch, and it is also requested that the allowable due the Drinkard zone be cancelled.

Enclosed are the appropriate Commission application form C-107, plat of the area, and diagrammatic sketch of the proposed installation.

Yours very truly,

LAKELAND PETROLEUM CORPORATION

H. H. Brown, Operations Supervisor
