Re: Application to Dual Complete  
J. R. Cone "A" No. 1 in Drinkard  
and Blinebry Pools, Lea County,  
New Mexico

Dear Sir:

Sinclair Oil & Gas Company respectfully requests administrative approval to dual complete its J. R. Cone "A" Well No. 1 as a Blinebry-Drinkard, oil-oil dual. The well is located in Unit M, Section 26, T-21-S, R-37-E, Lea County, New Mexico.

The well is presently a Tubb Gas-Drinkard Oil dual. It is proposed to squeeze the Tubb zone and recomplete in such a manner that the Drinkard Oil and Blinebry Oil zones can be produced thru parallel strings of 2" OD tubing. Therefore, this is also a request to cancel the Tubb Gas allowable due this well and the applicable Tubb Gas-Drinkard Oil permit granted this well. The Tubb Gas will be re-completed in our J. R. Cone "A" No. 2 at a later date, and the allowable due this well will at that time be requested to be transferred to that well using the same acreage allocation.

Enclosed you will find the appropriate Commission application form, plat of the area, and diagrammatic sketch of the proposed dual installation.

Yours very truly,

  
Fred Burns  
District Superintendent
