Gentlemen:

Effective January 1, 1963 your Hill No. 1 located in Unit P of Section 26, T-21-S, R-37-E is reclassified as a gas well in the Blinebry Gas Pool. This reclassification is necessitated by your recently submitted gas-oil ratio report which indicates the well to be producing in excess of 32,000 cubic feet per barrel.

A gas allowable will be assigned this well when you have complied with the provisions of Commission Order No. R-1670 which pertain to the Blinebry Gas Pool.

Yours very truly,

OIL CONSERVATION COMMISSION

OIL CONSERVATION COMMISSION

HOBBS, NEW MEXICO

July 12, 1937

Mr. J. B. ...
Hobbs, New Mexico

Dear Sir:

Reference is made to your letter of June 10, 1937, in which you request that the Commission consider the application of the provisions of the Conservation Order No. 1-1070 which relate to the drilling of oil wells in the Hobbs area. The Commission has considered your application and has determined that the provisions of the Conservation Order No. 1-1070 should be applied to the drilling of oil wells in the Hobbs area.

The Commission has determined that the provisions of the Conservation Order No. 1-1070 should be applied to the drilling of oil wells in the Hobbs area. This determination is based on the fact that the drilling of oil wells in the Hobbs area is a matter of public interest and the Commission has the duty to protect the public interest.

Very respectfully,
J. B. ...

Oil Conservation Commission
