DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

It is proposed to change casing program from that specified on Notice of Intention to Drill, dated August 21, 1950, as follows:

19 3/8" casing to be set at approximately 230' and cemented with 250 sacks. Cement to be circulated to surface.

All other specifications set out on Notice of Intention to Drill will be complied with.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
