THE AMERICAN MEDICAL ASSOCIATION

The American Medical Association is the largest and most influential of the medical organizations in this country. It is a non-profit corporation, organized for the purpose of promoting the interests of the medical profession and the public. It is composed of members from all parts of the United States and Canada, and its headquarters are in Chicago, Ill.

The Association is organized into several departments, each of which is responsible for a particular phase of the work of the organization. These departments are the Department of Legislation, the Department of Education, the Department of Public Health, the Department of Research, and the Department of Administration. Each department is headed by a member of the Association, and they all work together to carry out the policies of the Association.

The Association is also organized into several committees, each of which is responsible for a particular phase of the work of the organization. These committees are the Committee on Legislation, the Committee on Education, the Committee on Public Health, the Committee on Research, and the Committee on Administration. Each committee is headed by a member of the Association, and they all work together to carry out the policies of the Association.

The Association is also organized into several sections, each of which is responsible for a particular phase of the work of the organization. These sections are the Section on Legislation, the Section on Education, the Section on Public Health, the Section on Research, and the Section on Administration. Each section is headed by a member of the Association, and they all work together to carry out the policies of the Association.

The Association is also organized into several divisions, each of which is responsible for a particular phase of the work of the organization. These divisions are the Division on Legislation, the Division on Education, the Division on Public Health, the Division on Research, and the Division on Administration. Each division is headed by a member of the Association, and they all work together to carry out the policies of the Association.

The Association is also organized into several branches, each of which is responsible for a particular phase of the work of the organization. These branches are the Branch on Legislation, the Branch on Education, the Branch on Public Health, the Branch on Research, and the Branch on Administration. Each branch is headed by a member of the Association, and they all work together to carry out the policies of the Association.

The Association is also organized into several districts, each of which is responsible for a particular phase of the work of the organization. These districts are the District on Legislation, the District on Education, the District on Public Health, the District on Research, and the District on Administration. Each district is headed by a member of the Association, and they all work together to carry out the policies of the Association.

The Association is also organized into several counties, each of which is responsible for a particular phase of the work of the organization. These counties are the County on Legislation, the County on Education, the County on Public Health, the County on Research, and the County on Administration. Each county is headed by a member of the Association, and they all work together to carry out the policies of the Association.

The Association is also organized into several cities, each of which is responsible for a particular phase of the work of the organization. These cities are the City on Legislation, the City on Education, the City on Public Health, the City on Research, and the City on Administration. Each city is headed by a member of the Association, and they all work together to carry out the policies of the Association.

The Association is also organized into several towns, each of which is responsible for a particular phase of the work of the organization. These towns are the Town on Legislation, the Town on Education, the Town on Public Health, the Town on Research, and the Town on Administration. Each town is headed by a member of the Association, and they all work together to carry out the policies of the Association.

The Association is also organized into several villages, each of which is responsible for a particular phase of the work of the organization. These villages are the Village on Legislation, the Village on Education, the Village on Public Health, the Village on Research, and the Village on Administration. Each village is headed by a member of the Association, and they all work together to carry out the policies of the Association.

The Association is also organized into several hamlets, each of which is responsible for a particular phase of the work of the organization. These hamlets are the Hamlet on Legislation, the Hamlet on Education, the Hamlet on Public Health, the Hamlet on Research, and the Hamlet on Administration. Each hamlet is headed by a member of the Association, and they all work together to carry out the policies of the Association.

The Association is also organized into several parishes, each of which is responsible for a particular phase of the work of the organization. These parishes are the Parish on Legislation, the Parish on Education, the Parish on Public Health, the Parish on Research, and the Parish on Administration. Each parish is headed by a member of the Association, and they all work together to carry out the policies of the Association.

The Association is also organized into several parishes, each of which is responsible for a particular phase of the work of the organization. These parishes are the Parish on Legislation, the Parish on Education, the Parish on Public Health, the Parish on Research, and the Parish on Administration. Each parish is headed by a member of the Association, and they all work together to carry out the policies of the Association.
