

OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

DUPLICATE

MISCELLANEOUS REPORTS ON WELLS

OCT 22 1946

Submit this report in triplicate to the Oil Conservation Commission or its proper agent within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of casing shut-off, result of plugging of well, and other important operations, even though the work was witnessed by an agent of the Commission. Reports on minor operations need not be signed and sworn to before a notary public. See additional instructions in the Rules and Regulations of the Commission.

Indicate nature of report by checking below:

REPORT ON BEGINNING DRILLING OPERATIONS		REPORT ON REPAIRING WELL	
REPORT ON RESULT OF SHOOTING OR CHEMICAL TREATMENT OF WELL		REPORT ON PULLING OR OTHERWISE ALTERING CASING	
REPORT ON RESULT OF TEST OF CASING SHUT-OFF	13-3/8"	REPORT ON DEEPENING WELL	
REPORT ON RESULT OF PLUGGING OF WELL

OIL CONSERVATION COMMISSION,
SANTA FE, NEW MEXICO.

Gentlemen:

Following is a report on the work done and the results obtained under the heading noted above at the

Gulf Oil Corporation Eunice King Well No. 4 in the
Company or Operator Lease

SW NW of Sec. 28, T. 21 S, R. 37 E, N. M. P. M.,
Drinkard Field, Lea County.

The dates of this work were as follows: Cemented Oct. 18; tested Oct. 20, 1946

Notice of intention to do the work was (~~was not~~) submitted on Form C-102 on Oct. 18 19 46
and approval of the proposed plan was (~~was not~~) obtained. (Cross out incorrect words.)

DETAILED ACCOUNT OF WORK DONE AND RESULTS OBTAINED

The hole was washed down and the casing tested with 1200# pressure applied for 30 minutes. The plug was drilled and the hole tested with 1200# pressure applied for 30 minutes. Both tests were OK, and after approval of Mr. Yarbrough, State Oil and Gas Inspector, preparations were being made to drill ahead.

Witnessed by W. F. Ferlin Gulf Oil Corporation Acting Rotary Foreman

Title

The first part of the paper discusses the importance of understanding the underlying mechanisms of the observed phenomena. It is essential to identify the key factors that influence the outcome and to develop a theoretical framework that can explain the observed results. This involves a careful analysis of the data and a consideration of the relevant literature. The second part of the paper presents the empirical results, which are based on a large sample of observations. The results show that the hypothesized relationships are generally supported, although there are some deviations from the expected patterns. The third part of the paper discusses the implications of the findings for policy and practice. It is suggested that the results can be used to inform the design of interventions and to guide the implementation of existing programs. Finally, the paper concludes with a summary of the main findings and a discussion of the limitations of the study.
