

OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

MISCELLANEOUS REPORTS ON WELLS

Submit this report in triplicate to the Oil Conservation Commission or its proper agent within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of casing shut off, result of plugging of well, and other important operations, even though the work was witnessed by an agent of the Commission. Reports on minor operations need not be signed and sworn to before a notary public. See additional instructions in the Rules and Regulations of the Commission.

Indicate nature of report by checking below.

OIL CONSERVATION COMMISSION,
SANTA FE, NEW MEXICO

Gentlemen:

Following is a report on the work done and the results obtained under the heading noted above at the

Gulf Oil Corporation

E. King

Well No. 9 in the

Company or Operator

Lease

SW NE of Sec. 28, T. 21S, R. 37E, N. M. P. M.,

Drinkard Field, Lea County.

The dates of this work were as follows: Cemented March 28, 1948. Tested March 30, 1948

Notice of intention to do the work was (was not) submitted on Form C-102 on March 29, 1948

and approval of the proposed plan was (was not) obtained. (Cross out incorrect words.)

DETAILED ACCOUNT OF WORK DONE AND RESULTS OBTAINED

The hole was washed down and the casing tested with 1200# pressure applied for 30 minutes. The plug was drilled and the casing tested with 1200# pressure applied for 30 minutes. Both tests were OK, and after approval of Mr. Yarbrough, State Oil and Gas Inspector, preparations were made to drill ahead.

Top of cement back of 9-5/8" casing at 1405' per temperature survey.

THEORY OF THE EARTH AND ITS HISTORY

CHAPTER I. THE EARTH AND ITS HISTORY

The Earth is a sphere, and its surface is covered by water. The land is divided into continents and islands. The continents are the large masses of land, and the islands are the small pieces of land. The land is covered by mountains, hills, and valleys. The mountains are the high parts of the land, and the hills are the low parts of the land. The valleys are the low parts of the land between the mountains and hills.

The land is covered by rivers and lakes. The rivers are the large bodies of water that flow from the mountains and hills to the sea. The lakes are the large bodies of water that are surrounded by land. The land is covered by forests and fields. The forests are the large areas of land covered by trees. The fields are the large areas of land covered by crops.

The land is covered by animals and plants. The animals are the large creatures that live on the land. The plants are the small creatures that live on the land. The land is covered by the sun and the moon. The sun is the large ball of fire that gives us light and heat. The moon is the small ball of rock that orbits the Earth.

The land is covered by the wind and the rain. The wind is the air that moves from one place to another. The rain is the water that falls from the sky. The land is covered by the snow and the ice. The snow is the white substance that falls from the sky. The ice is the solid substance that forms on the water.

The land is covered by the fire and the water. The fire is the hot substance that burns. The water is the liquid substance that flows. The land is covered by the earth and the sky. The earth is the solid substance that we live on. The sky is the space above the earth.

The land is covered by the life and the death. The life is the state of being alive. The death is the state of being dead. The land is covered by the birth and the end. The birth is the beginning of life. The end is the end of life. The land is covered by the hope and the despair. The hope is the feeling of optimism. The despair is the feeling of pessimism.

The land is covered by the love and the hate. The love is the feeling of affection. The hate is the feeling of dislike. The land is covered by the joy and the sorrow. The joy is the feeling of happiness. The sorrow is the feeling of sadness.

The land is covered by the peace and the war. The peace is the state of calm. The war is the state of conflict. The land is covered by the freedom and the slavery. The freedom is the state of liberty. The slavery is the state of oppression.

The land is covered by the truth and the lie. The truth is the state of reality. The lie is the state of falsehood. The land is covered by the good and the evil. The good is the state of virtue. The evil is the state of vice.

The land is covered by the light and the dark. The light is the state of brightness. The dark is the state of darkness. The land is covered by the day and the night. The day is the time of light. The night is the time of darkness.

The land is covered by the summer and the winter. The summer is the time of heat. The winter is the time of cold. The land is covered by the spring and the autumn. The spring is the time of growth. The autumn is the time of harvest.

The land is covered by the youth and the old. The youth is the time of life. The old is the time of death. The land is covered by the young and the old. The young are the people who are alive. The old are the people who are dead.

The land is covered by the living and the dead. The living are the people who are alive. The dead are the people who are dead. The land is covered by the life and the death. The life is the state of being alive. The death is the state of being dead.
