Bliebry Oil & Gas Pool
Well Producing Without Assigned Allowable

Gentlemen:

Production is being reported on Form C-115 for the above-referenced well in the Bliebry Pool, although our records do not indicate the well has an assigned allowable.

You submitted your recompletion papers for this well in April 1986; however, before a Bliebry oil allowable can be assigned to this well, it will be necessary for you to obtain a 120-acre NSP for Eunice King #15 and #24 since this 40 acres is part of the 160 acre proration unit shared by those two gas wells.

Please advise this office as to the status of your NSP application for wells #15 and #24, or what your plans are for Eunice King #10.

Very truly yours,

OIL CONSERVATION DIVISION
