

Wm. Turner Well No. 3
Sec. 29-21-37
Bare Pool

CORE #1, 7784' - 96'. Recovered 12' shale and sandy lime dry.

CORE #2, 7796' - 7820. Simpson shale formation. Recovered 24' lime and shale. No. show.

CORE #3, 7822' - 27' - Shale, no show.
7827' - 32' - Sandy shale, no show.
7832' - 37' - Sand with streaks of stain.
7842' - 47' - Sandy shale, no show.
7847' - 52' - Hard shale, no show.

CORE #4, 7854 - 7888'. McKee sand formation. Recovered 34' sand.
7854 - 7878'. No show.
7879 - 7888'. Saturated oil.

CORE #5, 7892' - 7912'. McKee sand formation. Recoverd 10' mostly saturated with oil and very soft.

1. The first step is to identify the problem or question that needs to be answered. This involves understanding the context and the specific requirements of the task.

2. The second step is to gather relevant information and data. This can be done through research, consultation with experts, or by analyzing existing data sets.

3. The third step is to develop a plan or strategy to address the problem. This involves breaking down the problem into smaller, manageable parts and determining the best approach to solve each part.

4. The fourth step is to implement the plan. This involves carrying out the tasks and activities that have been identified in the plan.

5. The fifth step is to evaluate the results. This involves comparing the actual outcomes with the expected outcomes and identifying any areas for improvement.

6. The sixth step is to communicate the findings. This involves sharing the results of the analysis with the relevant stakeholders and providing recommendations for action.

7. The seventh step is to monitor and review the process. This involves keeping track of the progress of the project and making adjustments as needed to ensure that the project is completed successfully.

8. The eighth step is to document the process. This involves creating a record of the steps taken and the results achieved, which can be used for future reference and learning.

9. The ninth step is to reflect on the experience. This involves thinking about what was learned from the project and how it can be applied to future projects.

10. The tenth step is to celebrate success. This involves acknowledging the achievements of the team and celebrating the successful completion of the project.
