17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

The Blinebry gas zone in this well, perforated interval 5567-5698', has declined to about 50 MCFGD and is no longer economical to produce. We propose to plug and abandon this zone by squeeze cementing these perforations w/150 sx of Class "C" cement. We will WOC 24 hrs, drill out squeeze job and test to 1000#. No remedial work will be performed on the Drinkard zone at this time.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
