Dear Sir:

Following are a list of wells we would like to have exempt from packer leakage testing if possible. These wells are on plunger lift systems, the wells load up with fluid when CI for this length of time, therefore we incur additional swabbing cost. Also, a few of the wells on this list are T.A.'d.

If you have any questions on these please call the Chevron, Eunice Field Office at 397-8770 Ext. 229 between the hours of 6:30 A.M. and 3:30 P.M. Monday through Friday.
