Mr. C. W. McKeen
Barnsdall Oil Company
Box 466
Pecos, Texas

Dear Mr. McKeen:

I am returning herewith the three copies of form C-102, "Notice of Intention to Test Casing Shut-off" for the 7" casing on your Dayton G. Hardy Well No. 1 in Sec. 29, T. 21 S., R. 37 E.

According to form C-102, "Miscellaneous Notices" which I approved March 12, 1936, the proposed plan of work was to set the 7" casing on a shoulder without cementing, for the purpose of testing and if any show was encountered the casing was to have been cemented at that point. According to form C-105, "Well Record", the 7" casing was set on a shoulder at 3620' and not cemented.

For the best interests of everyone concerned, I believe the plan approved on March 12, 1936, should be followed.

Your prompt attention in this matter will be greatly appreciated.

Very truly yours,

FJV:t

Encls.

F. J. Vesely,
State Oil & Gas Inspector.
