# THEORY OF THE EARTH

## CHAPTER I. OF THE ORIGIN OF THE EARTH.

THE first question which presents itself to the mind, is, what was the origin of the earth? and the answer to this question is, that it was created by the power of God, out of nothing.

The second question is, what was the state of the earth at first? and the answer to this question is, that it was a mass of fire and molten matter.

The third question is, how did the earth become a globe? and the answer to this question is, that it was by the action of the power of God, who caused it to contract and become a globe.

The fourth question is, how did the earth become a habitable globe? and the answer to this question is, that it was by the action of the power of God, who caused it to become a habitable globe.

The fifth question is, how did the earth become a globe of the present shape? and the answer to this question is, that it was by the action of the power of God, who caused it to become a globe of the present shape.

The sixth question is, how did the earth become a globe of the present size? and the answer to this question is, that it was by the action of the power of God, who caused it to become a globe of the present size.

The seventh question is, how did the earth become a globe of the present temperature? and the answer to this question is, that it was by the action of the power of God, who caused it to become a globe of the present temperature.

The eighth question is, how did the earth become a globe of the present composition? and the answer to this question is, that it was by the action of the power of God, who caused it to become a globe of the present composition.

The ninth question is, how did the earth become a globe of the present position? and the answer to this question is, that it was by the action of the power of God, who caused it to become a globe of the present position.

The tenth question is, how did the earth become a globe of the present shape, size, temperature, composition, and position? and the answer to this question is, that it was by the action of the power of God, who caused it to become a globe of the present shape, size, temperature, composition, and position.

THEORY OF THE EARTH
