Re: Application to Dually Complete
Gulf Oil Corporation W. T.
McCormack No. 10, Drinkard
Pool, Lea County, New Mexico

Gentlemen:

By this letter of application Gulf Oil Corporation wishes to state the following:

(a) That Gulf Oil Corporation W. T. McCormack No. 10, located in the SE/4 NE/4 of Section 32, T-21-S, R-37-E, was completed April 19, 1947, at a total depth of 6605'. The attached Exhibit "A" shows the location of this well on the Gulf Oil Corporation W. T. McCormack Lease together with the location of all offset wells.

(b) That subject well has 7" casing set at 6498' and cemented with 700 sacks of cement. The well is an oil well producing from the open hole interval from 6498-6605' in the Drinkard Pool.

(c) That the applicant proposes to dually complete the well in the following manner:

- (1) Perforate the 7" casing within the approximate interval of 5565-5780' in the Blinebry Gas Pool.
- (2) Set production type packer below these perforations at approximately 5850' to separate the two pay zones.
- (3) Produce the Drinkard Pool oil through the tubing and the Blinebry gas through the tubing-casing annulus.

(d) That the granting of this application for permission to produce the well as a dual completion with gas from the Blinebry and oil from the Drinkard is in the interest of conservation and the protection of correlative rights.

(e) That the applicant will comply with all rules and regulations of the New Mexico Oil Conservation Commission to maintain separation of production from the two pay zones.

New Mexico Oil Conservation Commission
April 28, 1954
Page 2

(f) That the manner and method of the proposed dual completion is mechanically feasible and practical.

(g) That by copy of this letter of application, all offset operators are notified of the proposed dual completion.

Therefore, Gulf Oil Corporation requests that the Oil Conservation Commission grant permission to the applicant to dually complete the subject well as proposed in this application.

Respectfully submitted,

C. F. TAYLOR
Area Production Superintendent
