Attention: Mr. William J. LeMay - Director

Gentlemen:

Chevron U.S.A. Inc. respectfully requests administrative approval for the creation of a standard 160 acre Blinebry Gas Proration Unit in the NE/4 of Sec. 32, T21S, R37E and approval of a non-standard gas well location for W. T. McComack well No. 11.

Well No. 11 is located at 554' FNL and 554' FEL, Unit A, in Section 32, T21S, R37E, NMPM, Lea County, New Mexico. Chevron's intention is to abandon the McComack Silurian zone and recomplete well No. 11 into the Blinebry Oil and Gas Pool as a gas well.

There are currently no Blinebry wells in this quarter section. The nearest Blinebry offset well is Amoco's Turner No. 3, located at 760' FEL and 560' FSL, Section 29, T21S, R37E. It is 1132' from Chevron's well.

April 13, 1994

Attached is a plat outlining the proration unit along with the location of well No. 11, and a map showing the offset properties and wells.

Chevron U.S.A. Inc. requests that administrative approval of this request be granted. If additional information is required, please contact me at (915) 687-7152.

Sincerely,

Lloyd V. Trautman
Sr. Petroleum Engineer

(Offset Operator Address)

Gentlemen:

Attached is a copy of Chevron's administrative application for the creation of a standard 160 acre Blinebry Gas Proration Unit and an unorthodox gas well location for the W. T. McComack well No. 11.

Chevron has proposed a recompletion from the Silurian into the Blinebry Oil and Gas Pool as a gas producer.

If additional information is required, please contact me at (915) 687-7152.

Sincerely,

A handwritten signature in cursive script that reads "Lloyd V. Trautman".
