We propose to use the following strings of casing and to land or cement them as indicated:

Size of Hole	Size of Casing	Weight Per Foot	New or Second Hand	Depth	Landed or Cemented	Sacks Coment
17#	13-3/8"	44.5#	New	175'	Cemented	175
11##	8-5/6"	32#	New	2850'	Cemented	1000
7##	51"	17#	New	6600'	Cemented	450

If changes in the above plan become advisable we will notify you before cementing or landing casing. We estimate that the first productive oil or gas sand should occur at a depth of about 6500 feet. Additional information:

Halliburton process shall be used in cementing all Casing shall be allowed to set in accordance with rules of casing. New Mexico Oil Conservation Commission before drilling plug. Approved..... ..., 19.....
