Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

We propose to start the following work on January 2, 1973:

Pull rods and tubing from well. Run Gamma Ray-Neutron Log from 2850' to 6618'. Sandpump open hole to TD of 6618' if necessary. Run Salta PVC lined 2-3/8" tubing back in 7" casing with a Baker Lock-set plastic coated packer on bottom of tubing string. Packer will be set in 7" casing at 6450'. Casing annulus will be filled with treated water from top of packer to surface. When work is completed we plan to inject water through tubing into Drinkard formation from bottom of 7" casing set at 6502' to TD of 6618'.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
