

ALOCO OIL COMPANY

Box 67,
Allred, Texas,
June 14, 1939.

Oil Conservation Commission,
Hobbs, New Mexico.

Gentlemen:

In reference to your letter of June 6, 1939, in which you advised us that our Carson # 3 is located in Section 28 instead of Section 33 as reported on our "Notice of Intention to Drill", we are herewith respectfully submitting a pencil sketch of the two sections showing the relative locations of well Nos. 1, 2 and 3.

Well No. 3, now drilling, is located 660' from the north and 660' from the west lines of Section 33, as indicated on the enclosed sketch.

We hope the above serves as good information.

Yours very truly,

ALOCO OIL COMPANY,
