Re: Rule 104 Exception - Non-Standard Acreage
J. G. Hare Well No. 6
API 30-025-06966
1980' FSL & 760' FWL, UL L, Sec 33, T-21S, R-37E
Lea County, New Mexico

Dear Mr. Stogner:

Collins & Ware, Inc. respectfully requests Administrative Approval for an exception to Rule 104 for a non-standard 80-acre gas spacing and proration unit "GPU".

The J. G. Hare Lease consists of the SW/4 of Section 33, 160 acres. Currently we have 3 wells producing from the Blinebry Oil & Gas pool holding a total of 120 acres OPU:

J. G. Hare #1, SE/4 of SW/4
J. G. Hare #6, NW/4 of SW/4
J. G. Hare #7, SW/4 of SW/4

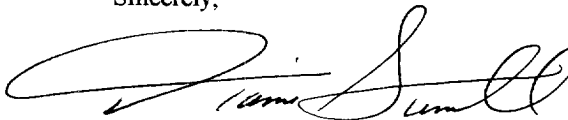

The GOR for the J. G. Hare #6, currently producing from the Blinebry Oil & Gas pool indicates that this well has now become a gas well and should be placed in the Blinebry Oil & Gas (Pro Gas) pool which requires a 160-acre GPU. With only 80-acres available to dedicate to this gas well, a non-standard GPU is requested. This non-standard GPU will be comprised of the N/2 of the SW/4 of Section 33, T-21S, R-37E, 80-acres.

Collins & Ware, Inc. owns 100% working interest in this lease and does not wish to shut-in currently producing properties or to pool with outside parties to obtain additional acreage necessary for a standard 160 acre GPU.

A list of affected offset operators has been attached for your review and a copy of this letter along with a plat have been forwarded to each by certified return receipt mail as notice of this request.

Thank you in advance for your consideration of our request. If you have any questions, please do not hesitate to give me a call at (915) 686-4313 or E-mail me at dsumrall@collinsandware.com.

Sincerely,

Dianne Sumrall
Production Administrator
