

OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

MISCELLANEOUS REPORTS ON WELLS

Submit this report in triplicate to the Oil Conservation Commission or its proper agent within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of casing shut off, result of plugging of well, and other important operations, even though the work was witnessed by an agent of the Commission. Reports on minor operations need not be signed and sworn to before a notary public. See additional instructions in the Rules and Regulations of the Commission.

Indicate nature of report by checking below.

REPORT ON BEGINNING DRILLING OPERATIONS		REPORT ON REPAIRING WELL	
REPORT ON RESULT OF SHOOTING OR CHEMICAL TREATMENT OF WELL		REPORT ON PULLING OR OTHERWISE ALTERING CASING	
REPORT ON RESULT OF TEST OF CASING SHUT-OFF	9-5/8"	REPORT ON DEEPENING WELL	
REPORT ON RESULT OF PLUGGING OF WELL			

December 21, 1948

Gentlemen:

Following is a report on the work done and the results obtained under the heading noted above at the _____

Gulf Oil Corporation

J. N. Carson "C"

Well No. 5

in the

Company or Operator

Lease

ME NE

of Sec. 33

T. 21S

R. 37E

N. M. P. M.,

Brunson

Field,

Lea

County.

The dates of this work were as follows: Cemented on Dec. 18, 1948. Tested on Dec. 20, 1948.

Notice of intention to do the work was (~~was not~~) submitted on Form C-102 on December 20, 1948 and approval of the proposed plan was (~~was not~~) obtained. (Cross out incorrect words.)

DETAILED ACCOUNT OF WORK DONE AND RESULTS OBTAINED

After waiting forty-eight hours, the casing was tested with 1200# pressure applied for 30 minutes. The plug was drilled and the casing and cement were tested with 1200# pressure applied for 30 minutes. Both tests were OK, and after approval of Mr. Yarbrough, State Oil & Gas Inspector, preparations were made to drill ahead.

Top of cement back of 9-5/8" csg @ 1120' per temperature survey.

THEORY OF THE EARTH

CHAPTER I. OF THE ORIGIN OF THE EARTH.

THE EARTH, as we see it, is a globe, or sphere, of a very irregular surface. It is covered with water, and the land is broken up into islands and continents. The surface of the land is not smooth, but is covered with mountains, hills, valleys, and rivers. The interior of the earth is not known, but it is supposed to be a solid mass of matter. The earth is surrounded by a thin atmosphere of air, and is covered with a thin layer of water. The earth is a part of a system of planets, and is subject to the same laws of gravitation as the other planets. The earth is a part of a system of stars, and is subject to the same laws of gravitation as the other stars. The earth is a part of a system of galaxies, and is subject to the same laws of gravitation as the other galaxies.

The earth is a part of a system of planets, and is subject to the same laws of gravitation as the other planets. The earth is a part of a system of stars, and is subject to the same laws of gravitation as the other stars. The earth is a part of a system of galaxies, and is subject to the same laws of gravitation as the other galaxies. The earth is a part of a system of universes, and is subject to the same laws of gravitation as the other universes. The earth is a part of a system of multiverses, and is subject to the same laws of gravitation as the other multiverses. The earth is a part of a system of omniverses, and is subject to the same laws of gravitation as the other omniverses. The earth is a part of a system of everythinges, and is subject to the same laws of gravitation as the other everythinges.

The earth is a part of a system of everythinges, and is subject to the same laws of gravitation as the other everythinges. The earth is a part of a system of everythinges, and is subject to the same laws of gravitation as the other everythinges. The earth is a part of a system of everythinges, and is subject to the same laws of gravitation as the other everythinges. The earth is a part of a system of everythinges, and is subject to the same laws of gravitation as the other everythinges. The earth is a part of a system of everythinges, and is subject to the same laws of gravitation as the other everythinges.
