E. O. Carson, #9-B & 16-D  
Sec. 33-T21S-R37E  
Blinbry Oil & Gas Pool

Gentlemen:

The annual Gas-Oil-Ratio Tests for the above-referenced wells indicated these wells should be reclassified from an oil well to a gas well in the Blinbry Oil & Gas Pool, with the oil allowable being cancelled effective May 1, 1999.

If for some reason you feel these tests do not reflect the proper classification of these wells, please submit another test for our consideration by April 5, 1999.

If these wells are to be reclassified from oil to gas you will need to submit the following:

- 163/11/99*
- 1.) Form C-102 acreage dedication plat for these wells, outlining a standard ~~100~~ acres proration unit or application for a NSP.
  - 2.) Form C-104 showing reclassification from oil to gas effective May 1, 1999, indicating transporters of condensate and dry gas for these wells.
  - 3.) Indicate if gas well gas is separately metered.

If you have questions concerning the above, please contact Nelda Morgan at (505) 393-6161 Ext. 101.

Very truly yours,  
OIL CONSERVATION DIVISION*Chris Williams*
