

February 17, 1953

New Mexico Oil Conservation Commission
Box 2045
Hobbs, New Mexico

Gentlemen:

Enclosed are original and one copy of Gas Well Plats on the R. Corrigan Number 7 gas well in the SE/4, Sec. 33 - 218-37E, a dual completion in the Tubbs and Blinbry formations Lea County, New Mexico. The former unit of 120 acres, consisting of the NW/4, the SE/4, the NE/4 of the SE/4, has been increased to include the NE/4 of the SE/4 of Sec. 33. A unitization agreement to include this acreage has been made between Stanolind Oil and Gas Company and Magnolia Petroleum Company. This unitization agreement is retroactive to 7 A. M., November 25, 1953.

We therefore request that the well in both the Tubbs and Blinbry formation be given an allowable based on 160 acres instead of the previous 120 acres.

Yours very truly,

H. L. Baker
District Superintendent
