Gentlemen:

By letter dated June 21, 1990, Chevron USA Inc. requested waivers from offset operators for their unorthodox gas well location in Section 34 of Township 21 South, Range 37 East, NMPM, Lea County, New Mexico.

Please be advised that Mobil Producing Texas & New Mexico Inc. objects to the unorthodox well location of the Mark Owen #4 located in unit letter J of Section 34. It is our position that this well would drain reserves from our Marshall Com Lease located in the NW/4 of the same section.

Please advise when and if a hearing will be set to review this matter so that we may make plans to attend.

Attention: Mr. William J. LeMay - Director

Gentlemen:

Chevron U.S.A. Inc. respectfully requests your approval of our administrative application for an unorthodox gas well location in the Blinebry (Pro Gas) (Consolidated) Pool. We are also requesting your approval to simultaneously dedicate this 160-acre proration unit to our Mark Owen Wells No. 3 and 4, located in letter units I and J of Section 34, respectively.

Chevron has recently recompleted this well within the Blinebry formation which has resulted in this wells' GOR exceeding 50,000:1, making it a gas well. This makes the current location of 2068' FSL and 2068' FEL, Section 34, T-21-S, R-37-E, NMPM an unorthodox location in that it is less than 660' from the outer boundary of the proration unit.

Chevron therefore, respectfully requests your approval of this administrative application under the provisions of Rule 104 (F). Attached is a map showing offset operators and a Form C-102. A copy of this letter and attachments are being furnished to the Offset Operators by Certified Mail, as notice of this application.

Yours very truly,
